Sarah-Jane,

Having reviewed the content of the email and attachments from Atkins, I accept the reasoned determination as set out below.

Sincerely

Vincent O'Malley

Vincent,

Having reviewed Paul's email below in conjunction with the full method statement for the proposed works, and having regard to the presence of a buffer distance to the nearest European site, I recommend that the following reasoned determination can be made:

"Having performed screening for Appropriate Assessment in respect of the proposed reactive maintenance works detailed in the email received from Paul O'Donoghue dated the 5th of November 2020, and entitled 'Re. Castleconnor West Bridge (SO-N59-018.30), Co. Sligo', I accept the recommendations of Atkins that the proposed reactive maintenance works, individually or in combination with other plans or projects, would not be likely to have a significant effect on any European site in view of the best scientific knowledge and the site's conservation objectives. I determine that an Appropriate Assessment of these proposed works is not required, as it can be excluded on the basis of objective scientific information following the screening done that the proposed works, individually or in combination with other plans or projects, will have a significant effect on any European site."

Kind regards,

Sarah-Jane

Re. Castleconnor West Bridge (SO-N59-018.30), Co. Sligo

Please find attached an AA Screening of proposed works at Castleconnor West Bridge (SO-N59-018.30), Co. Sligo. The works are to be done in the dry. I have included detailed descriptions of how this would be done. Don't hesitate to give me a call though if you have any questions.

Regards

Paul
