Introductory Remarks

- Traffic figures are measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic has remained largely stable and accordingly the daily figures provided are for cars only.
- The changes recorded day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week and the same day last year.
- **Level 3 restriction came into effect on Wednesday 7th October 2020.**

Daily Data for Tuesday 7th December 2021

- This morning's traffic numbers were impacted due to Storm Barra, therefore, the traffic numbers and comparisons should be read as a singular event and not as a meaningful pattern or trend.
- Overall, this morning's traffic volumes show a decrease as compared to those one week previous, Tuesday 30th November 2021, and a substantial decrease as compared to traffic volumes to the same day in 2020.
- Car traffic just south of the Northern Ireland Border on the N1 at Jonesboro shows a -27% change as compared with Tuesday 30th November and a -11% change as compared to the same day in 2020.
- In the case of the non-motorway border counter sites, traffic volumes today show changes of between -14% and -10% as compared with Tuesday 30th November. The changes in car traffic volumes since the same day in 2020 ranges from 0% on the N2 north of Monaghan to +11% on the N15 south of Lifford. It should be noted that traffic volumes at the N2, N3, N13, N15 and N16 counters are lower than at the motorway traffic counters and are likely to display wider fluctuations in traffic figures than other traffic counters. Data and comparisons for the N13 west of Derry and the N16 east of Manorhamilton have been excluded from today's report due to faults in the traffic counters.
- Traffic volumes on the radial routes into Dublin, comparisons with Tuesday 30th November are as follows: -25% on the M1 at M50 to Airport, -27% on the N7 at Citywest, -42% on the M11 at Bray and -23% on the M4 at Celbridge-Maynooth. Comparisons with the same day in 2020 are as follows: -17% on the M1 at M50 to Airport, -37% on the M11 at Bray, -19% on the M4 at Celbridge-Maynooth, and -23% on the N7 at Citywest.
- The M50 (N3 Navan Road to N4 Galway Road) shows a -21% change as compared with Tuesday 30th November and a -18% change as compared with the same day in 2020.
- In the case of the regional cities the changes in car traffic volumes this morning as compared with Tuesday 30th November are as follows: N6 Galway -33%, N40 Cork -83%, M9 Waterford -38%, and M7 Limerick -53%. Comparisons with the same day 2020 are as follows: N6 Galway -38%, N40 Cork -84%, M9 Waterford -35% and M7 Limerick -48%.
